

## Includes:

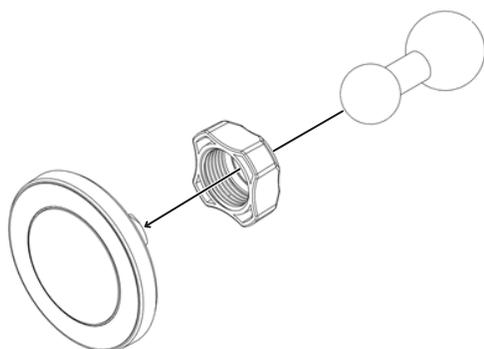

- 1 - MagSafe magnet holder with tightening ring (SPMAGS01)
- 1 - 25mm ball to 17mm ball adapter (SP25MM17)
- 1 - Robust™ Series 3.75 inch shaft arm (SP-RM250)
- 1 - Suction base with 25mm ball (SPRM081)

**Important:** Clean the application surface before applying the optional magnetic ring.

If using the optional magnetic ring, please press the adhesive back side to the application surface firmly. Allowing 24 hours for the adhesive to cure before using.

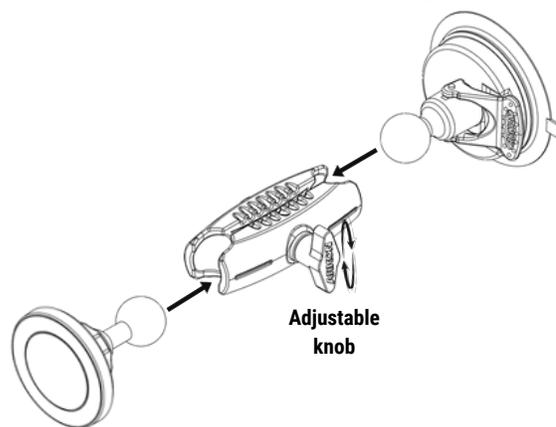

### 1 Attach the components

Position the tightening ring over the 17mm ball adapter. Insert the magnetic holder into the adapter. Secure the connection by tightening the ring in place.

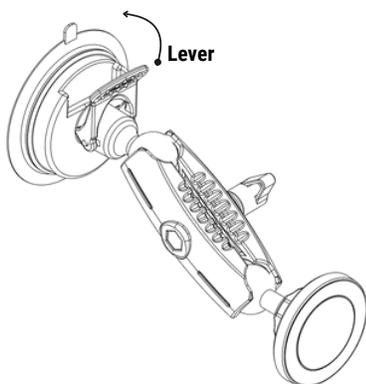

### 2 Assemble the components

Locate the shaft arm and turn to the adjustment knob counterclockwise to expand. Insert the 25mm ball ends into the shaft. Turn clockwise to tighten.

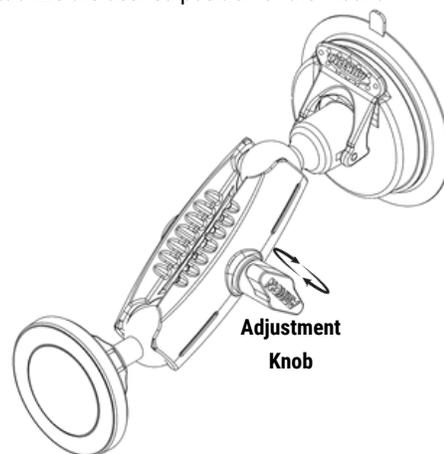

### 3 Install the suction cup on surface

Install the suction cup base on a clean, dry, flat surface using provided alcohol pad. Remove protective film, press suction cup firmly, and secure by flipping the lever down.

### 4 Tighten the 3.75" shaft to secure your desired position

Once the suction base is secured, tighten the shaft to stabilize the desired position of the mount.

#### WARNING

CHOKING HAZARD - Keep out of reach from children under 8 yrs. as they can choke or suffocate on parts included with this system

#### WARNING

5

## Optional - Installing the Magnetic Ring on Your Device

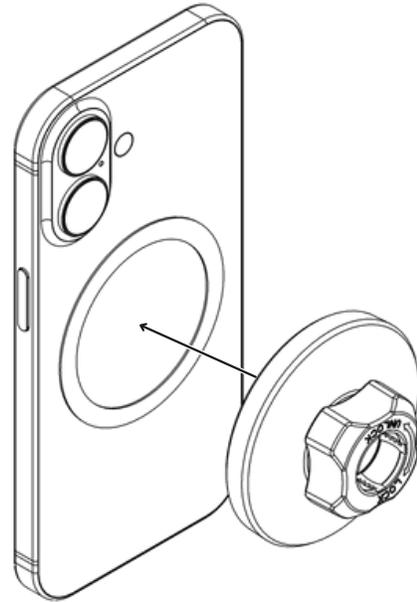

To attach the adhesive magnetic ring to your non-magsafe smartphone case, just remove the yellow sticky side and apply to the back of your device.

6

## Mounting Your Phone on the Holder

Ensure the magnetic ring of your MagSafe compatible device is aligned with the holder for a secure fit.
